

# IMAGING SERVICES

## Hurley Medical Center

Flint Michigan

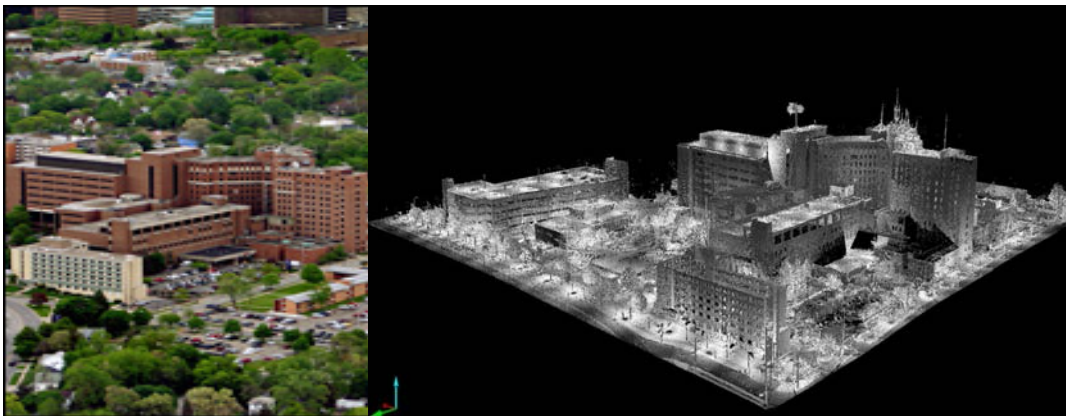

*3D Laser Imaging Services for ED Project*

### Medical Center Background

**Founded in 1908**, Hurley is a 443 bed public, non-profit, teaching medical center located in Flint, Michigan. Each year, more than 20,000 people choose Hurley for their inpatient hospital care. As the largest medical center in Genesee County and the region's only Level 1 trauma center, Hurley's emergency department handles over 76,000 annual emergency cases.

### Project Objective

Create a 3D point model for visualizing where the new emergency department would be built on the campus. 3D Imaging Services completed 276 scans in 4 days with there FARO LS 3D laser scanner.

### Project Facts

#### **Clients**

Dee Cramer Inc.  
Granger Construction Company  
HDR

#### **Field Time**

4 Days (field time)  
276 scan positions

#### **Benefit**

- Decisive factor in winning the 40 million dollar contract, because of due diligence in preparing for the presentation.
- Visualize the new ED from several different angles.
- Completed 3D survey of the campus.
- Completed the 3D survey without disrupting operations.
